

T901

9.0 Inch Industrial Panel PC

Features

- All metal reinforced structure design
- Capacitive high precision touch screen
- Protection level IP65
- Supports wide working temperature
- Supports wide working voltage
- Operating temperature: -20°C-+60°C, -40°C-+85°C (optional)

Description

The T901 adopts Intel 6th processor, with all metal material, reinforced design, it can meet a variety of engineering vehicles, special vehicles, field work, rail transportation and other harsh environments. At the same time with high expansibility, the device comes with four specified key value buttons, you can set the function according to the actual needs of users, and can also customize the required functions according to customer needs.
