ABOUT US

Shenzhen Fangcheng Teaching Equipment Co., Ltd, established in 2009 , is a National High-Tech Enterprise integrating research, processing and trade. Its headquarters is located in Shenzhen,China. With independent brands "FCYJBOARD" and "EIBOARD" , the company is dedicated to the R&D, production, and sales of commercial displays and interconnective technology products. The main products include LED recordable smart blackboard , LED interactive touch screen,interactive terminal, interactive flat panel , interactive whiteboard, multimedia all-in-one PC and related integrated systems for teaching and conferencing.

The company takes ISO9001 quality management system as a benchmark for management, focusing on the application of commercial displays and interconnective smart blackboard products. It adheres to the service philosophy of "Customer First" and continuously accumulates experience and resources to improve users' experience through innovation.

Looking ahead to the future, the company aims to be a leading global educational information brand by focusing on precise teaching and data-driven development of "Internet+ Education." The company strives for excellence by maintaining superior quality, advanced technology, and product innovation, providing thoughtful services to global users, and striving to achieve intelligent education.

2 World's First Launch

- LED Recordable Smart Blackboard ---- 2019
- Modular Designed Multimedia All-in-One PC ---- 2014

4 Invention Patents

- LED Recordable Smart blackboard ---- Patent No.: ZL202211149665.X
- Conference Smart Blackboard ---- Patent No.: ZL 202211091912.5
- Modular Design of All-in-One PC ---- Patent No.: 201420453639.0
- All-in-One Remote ---- Patent No.: 2017104668665

OUR HISTORY

2009
Established, with a focus on the R&D of interactive whiteboards.

2011
Became a leader in the education industry, with the innovative R&D of modular and combined teaching multimedia all-in-one PC.

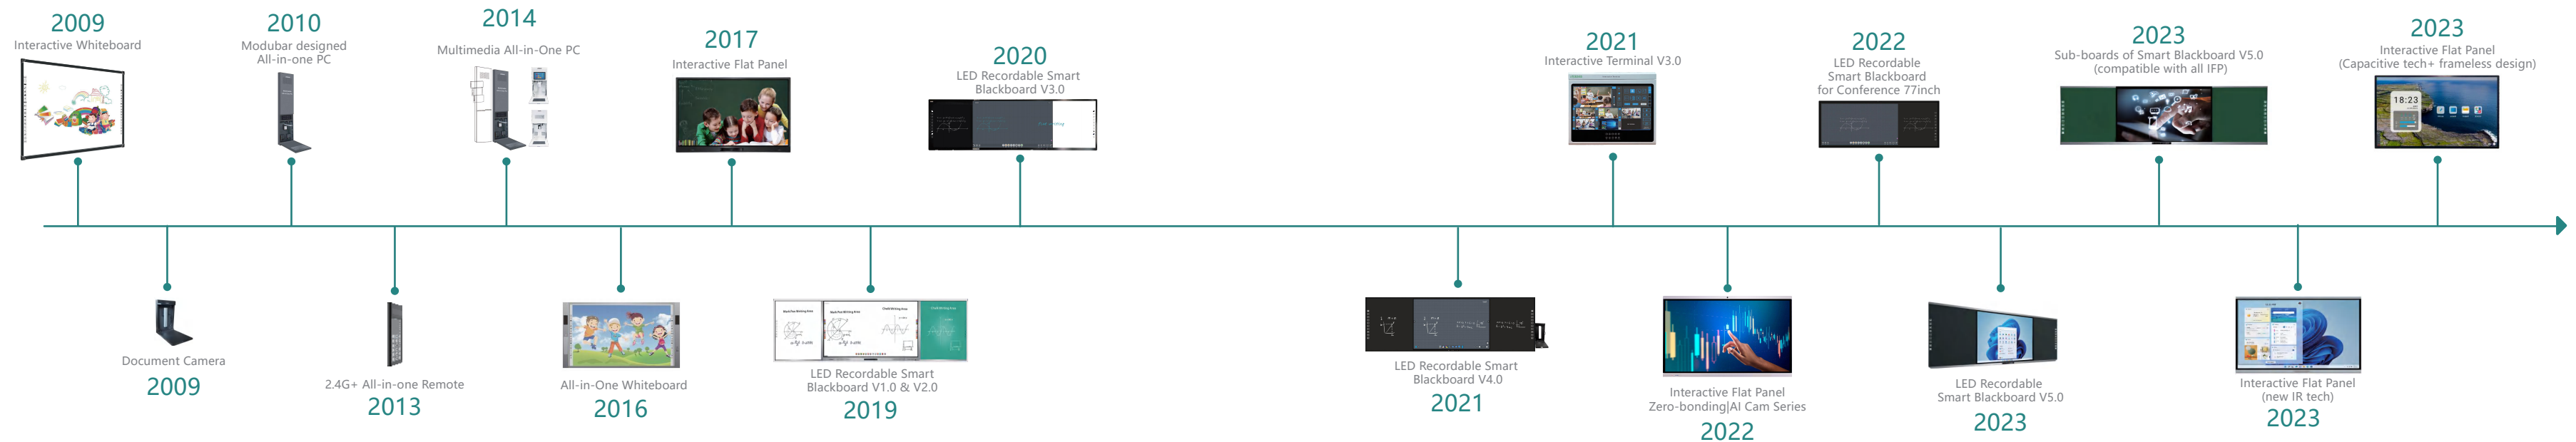

2013
Launched multimedia teaching solution, producing 100,000+ multimedia all-in-one PC per year. Also successfully developed a multifunctional 2.4G+remote and obtained invention patent.

2015
Recognized as a National High-tech Enterprise and invested in the R&D of multimedia all-in-one whiteboard and received a certificate for "Digital Campus Comprehensive Solution."

2017
Constructed a comprehensive solution for smart teaching. We innovatively developed LED interactive touch screen and obtained a software product certificate in the same year.

2019
Successfully developed LED recordable smart blackboard and interactive terminals, obtaining 26+ patents.

2022
LED recordable smart blackboard was digitalized with Cloud, and new launched V4.0. Smart IoT Control presents fusion of 1+ N.
